Since this data comparison project is not directly related to the FIP & FIP documents, can we rename this Sharepoint site something like "Registration and EI Data Comparison"?

I think it's best to keep a distinction between the two, so FIP documents (cost analysis spreadsheets, etc) should be kept on the I: drive for the U&O FIP so they are accessible to all if/when needed. Data comparison work can be kept on this Sharepoint site.

Thanks!

Hi All,

I created a SharePoint site for us to compile/edit any documents we want for the UT meeting. Feel free to add/edit anything on here.
